This opens the full list.

INSTALL FIELD CAM ON YOUR IPHONE

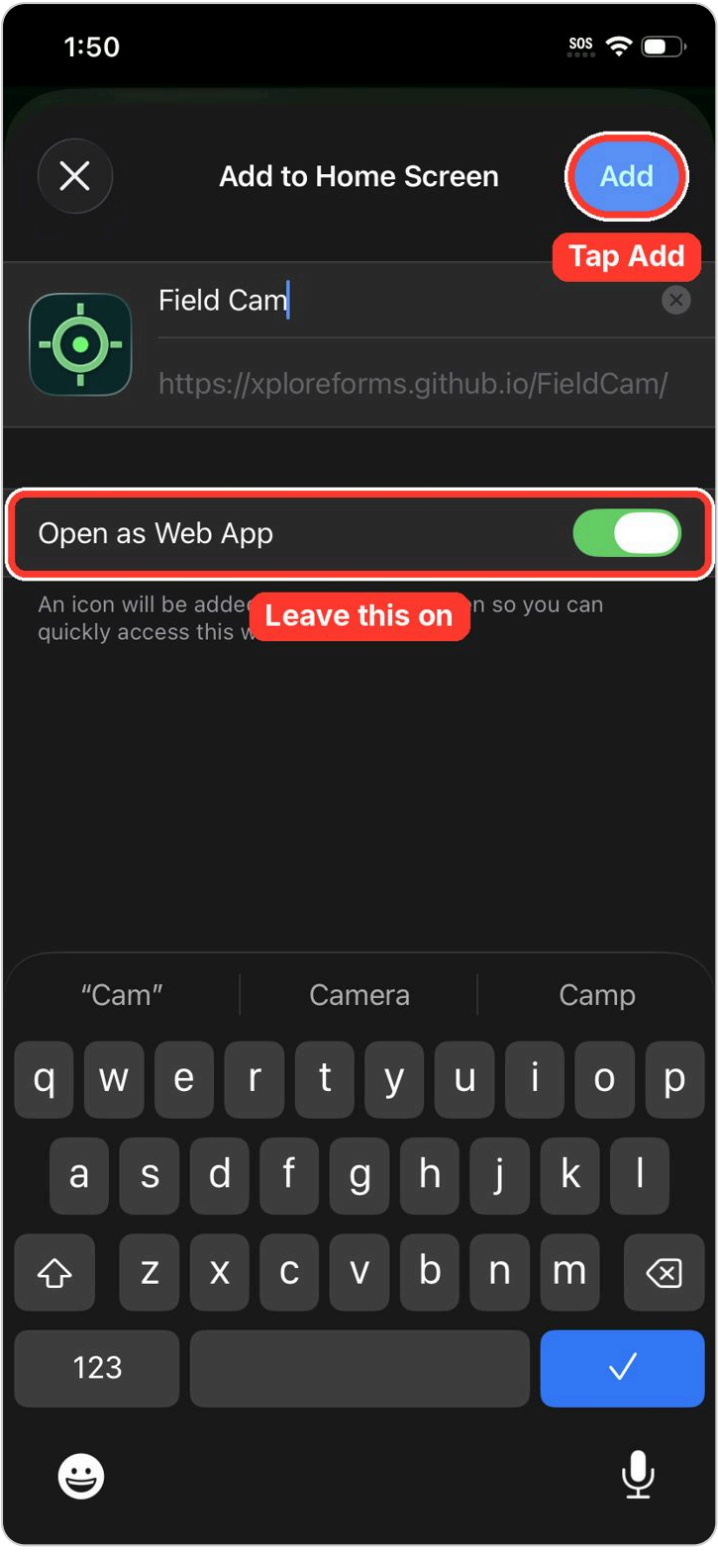

Then tap Add to Home Screen

INSTALL FIELD CAM ON YOUR IPHONE

3. Tap Add

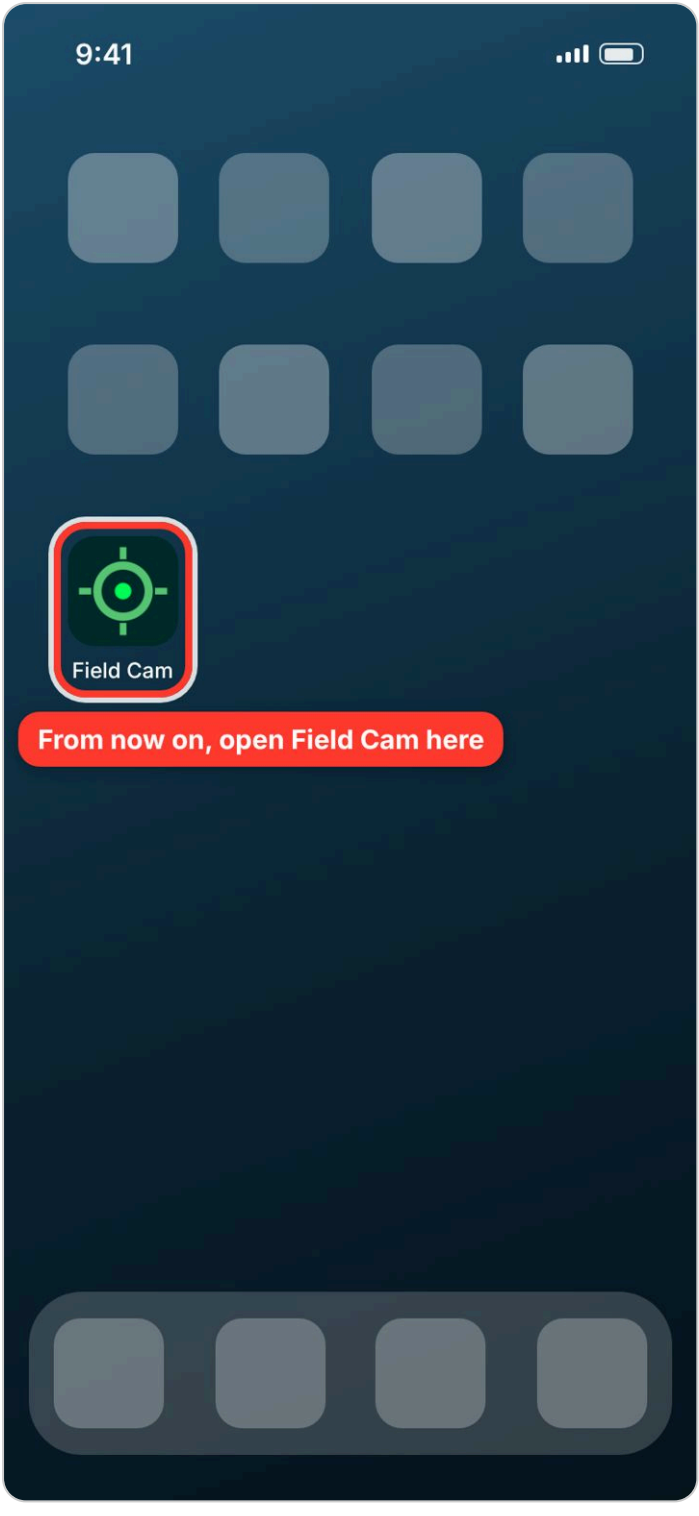

Leave **Open as Web App** on, then tap **Add**.

INSTALL FIELD CAM ON YOUR IPHONE

4. Open Field Cam from the icon

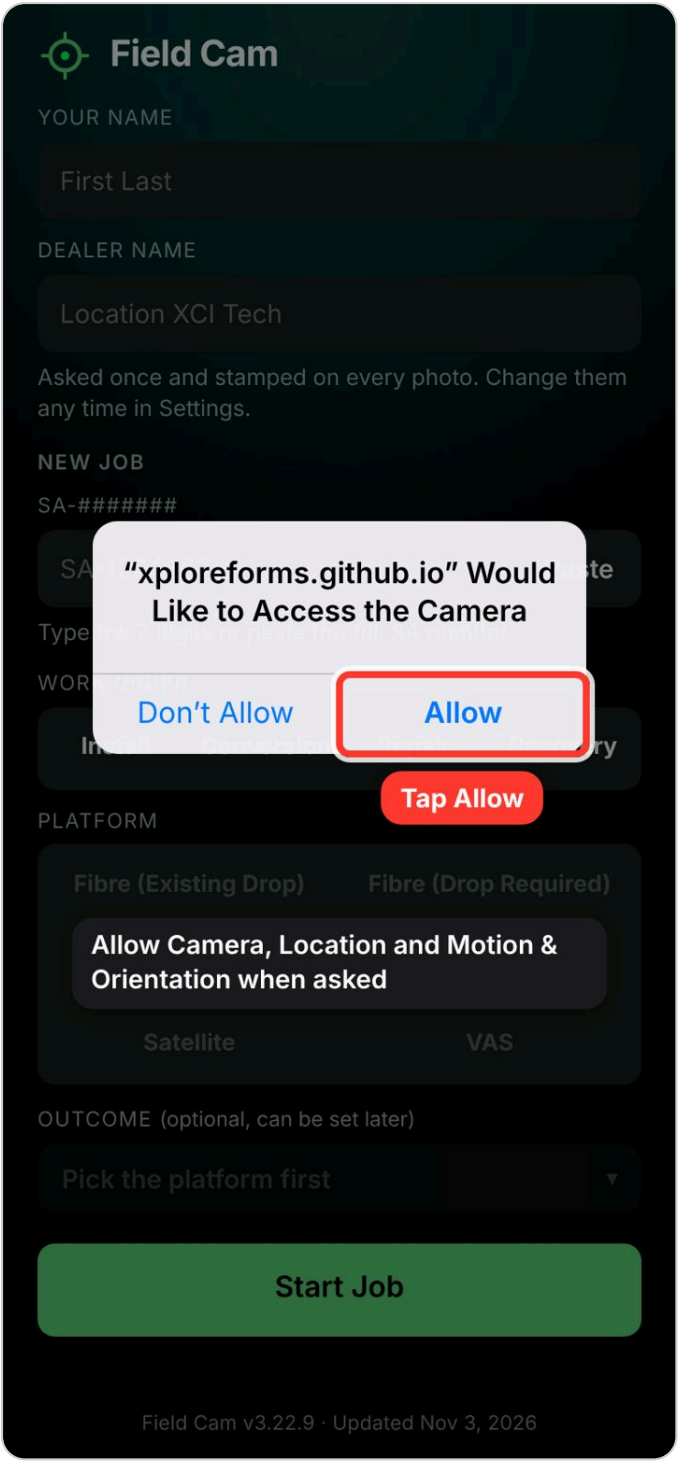

Close Safari. From now on, only open Field Cam from this icon.

INSTALL FIELD CAM ON YOUR IPHONE

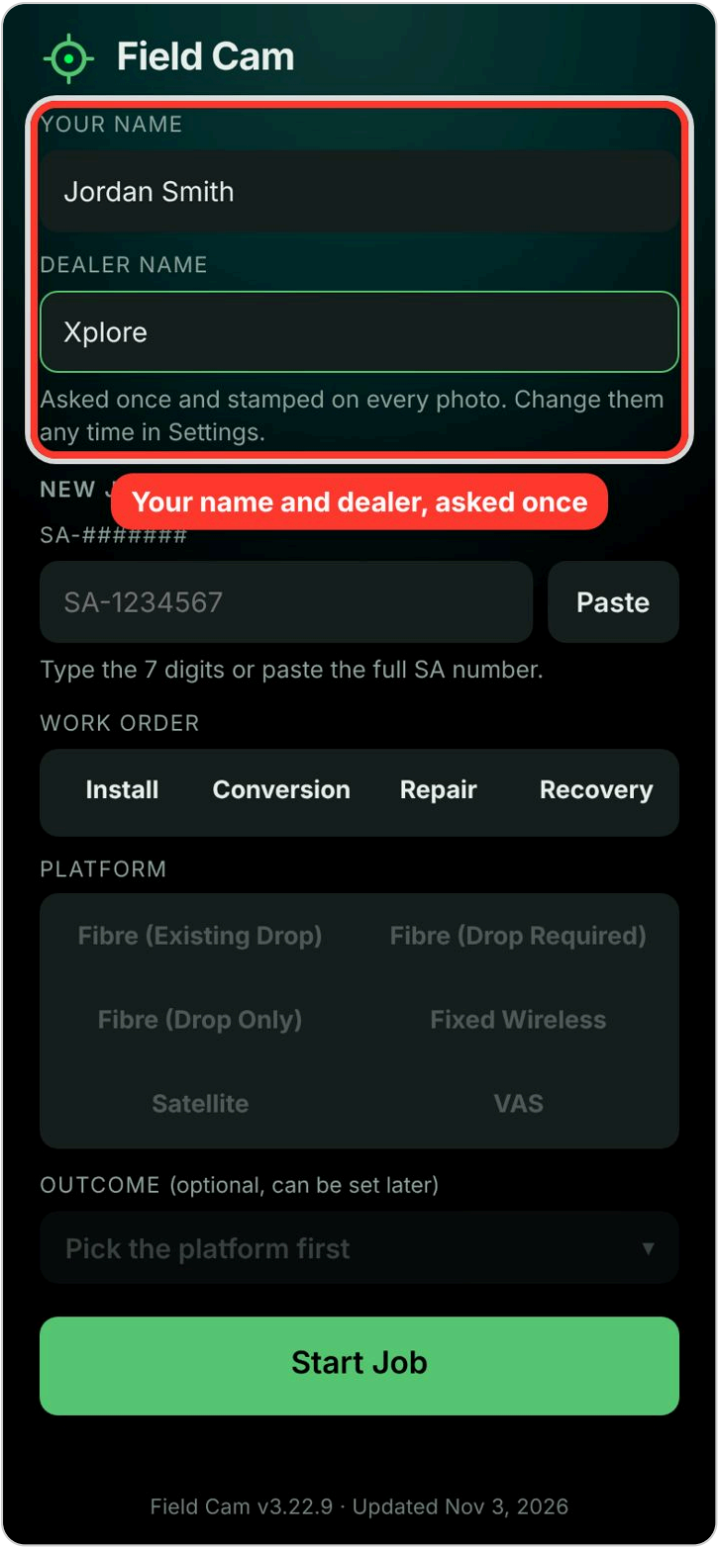

5. Allow access when asked

Tap **Allow** for Camera, Location, and Motion & Orientation. iPhone asks for Motion every time the app opens.

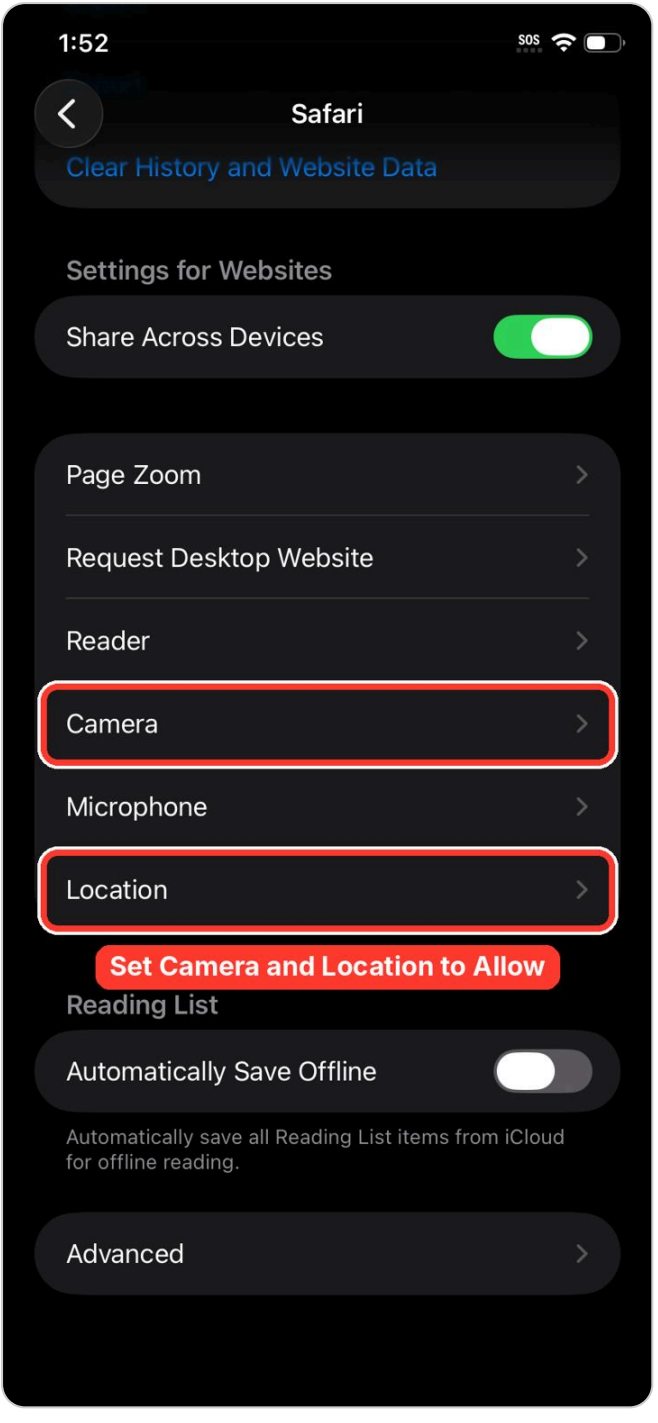

6. Enter your name and dealer

Asked once and stamped on every photo.

7. Stop repeat pop-ups

Settings › Apps › Safari, scroll to **Settings for Websites**. Set **Camera** and **Location** to **Allow**, then fully close and reopen Field Cam.

For exact GPS: Settings › Privacy & Security › Location Services › Safari Websites → While Using the App, Precise Location on.
