SAVE FIELD CAM PHOTOS TO YOUR IPHONE

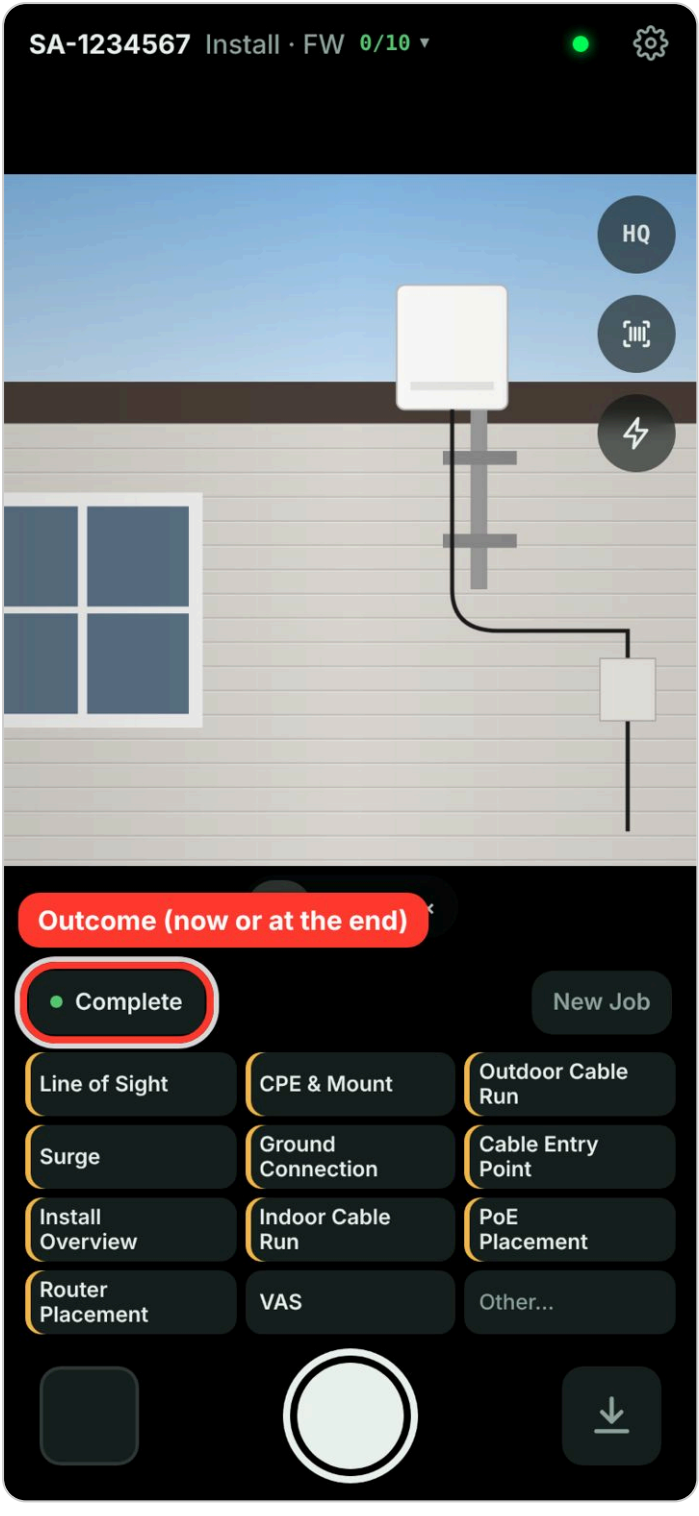

1. Start the job

Type the 7 digits of the **SA-#** (or tap **Paste**). Pick the **Work order** and **Platform**, then tap **Start Job**.

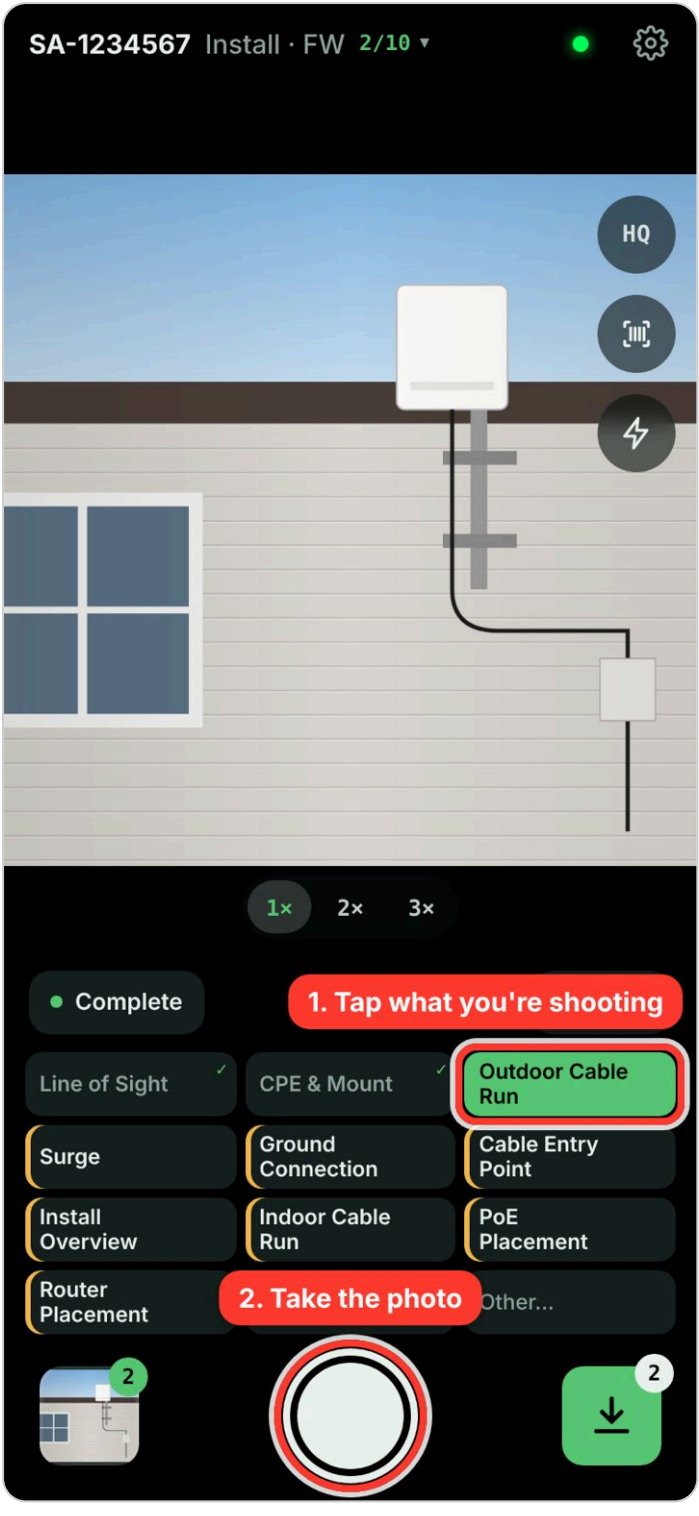

2. Set the outcome

Pick **Complete** or the reason. You can do this now or at the end.

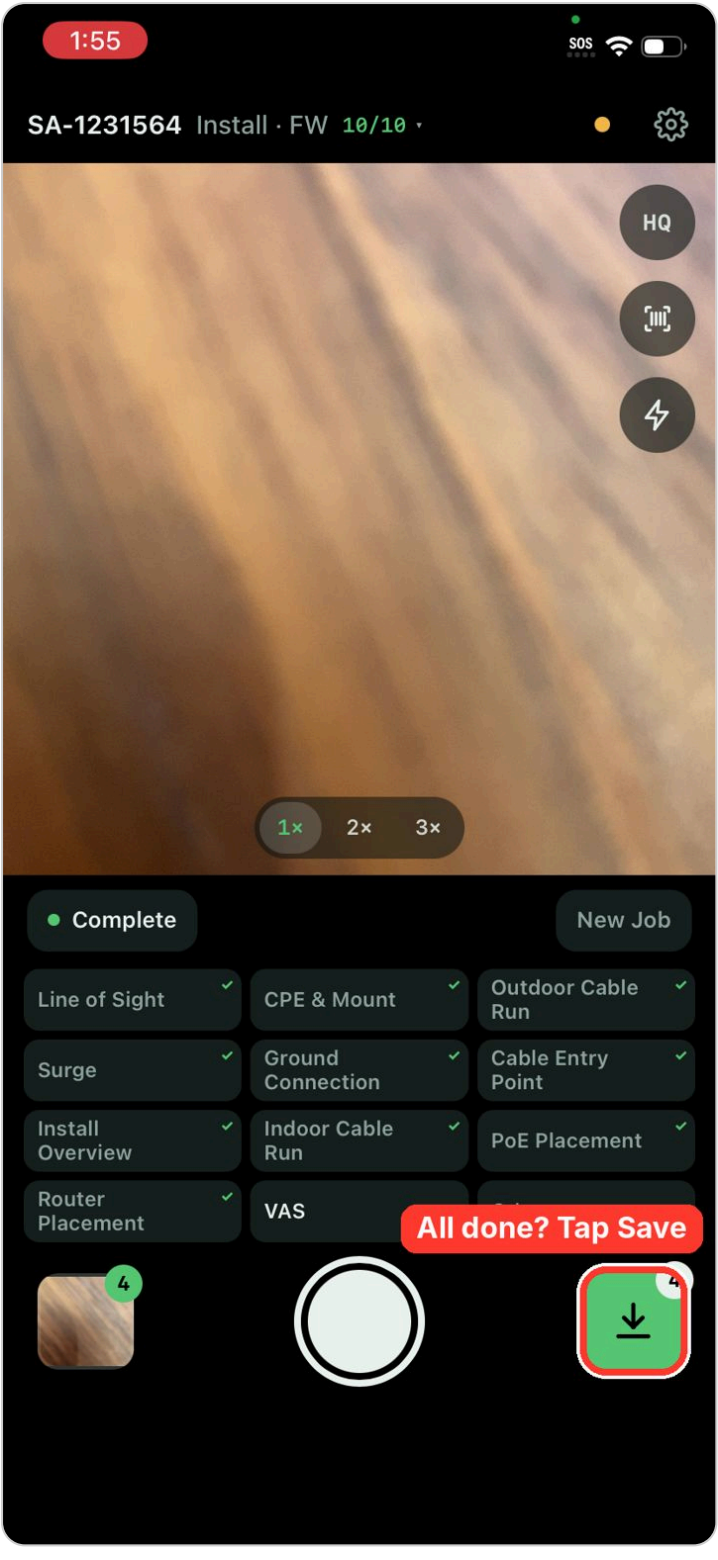

3. Take each photo

Tap the tile for what you're shooting, then the shutter. Amber edge = still needed, tick = done.

4. Tap Save

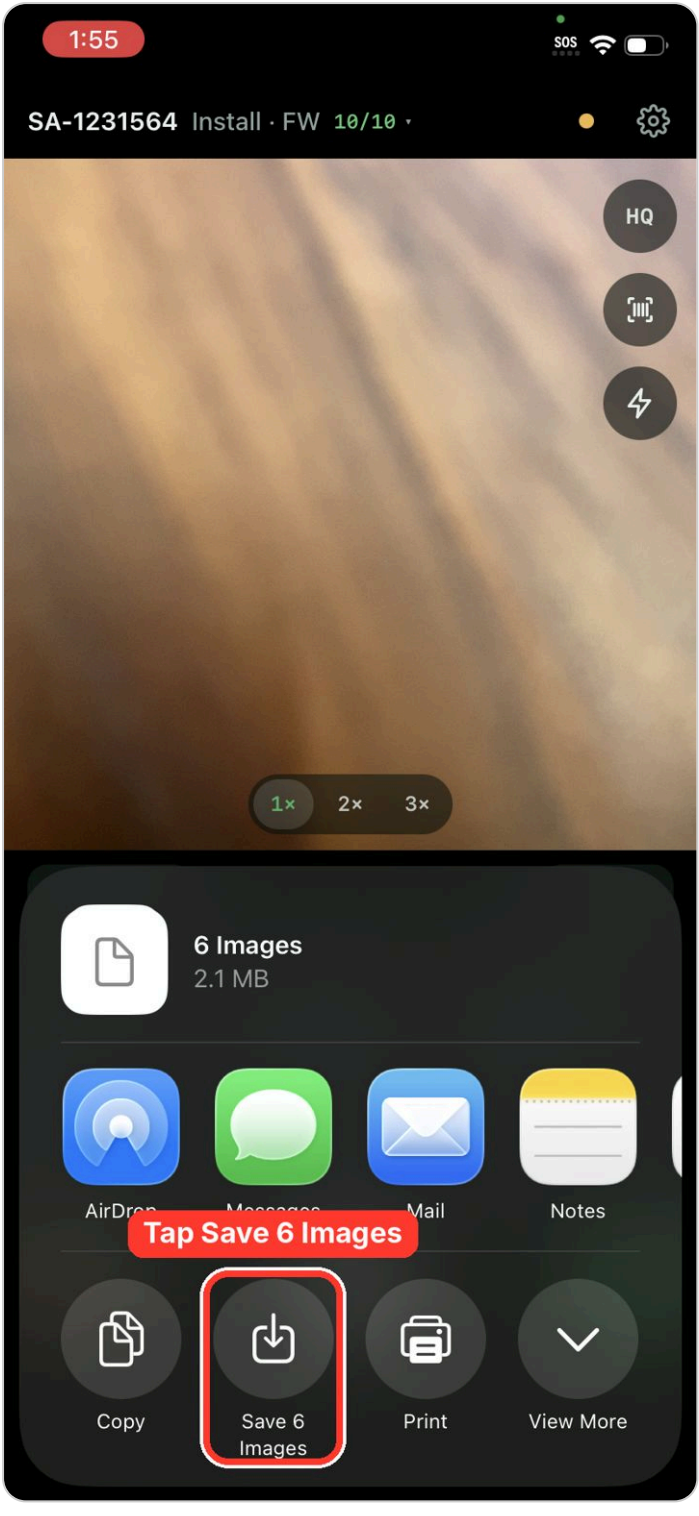

When every tile is ticked, tap the green **Save** button.

SAVE FIELD CAM PHOTOS TO YOUR IPHONE

5. Tap Save Images

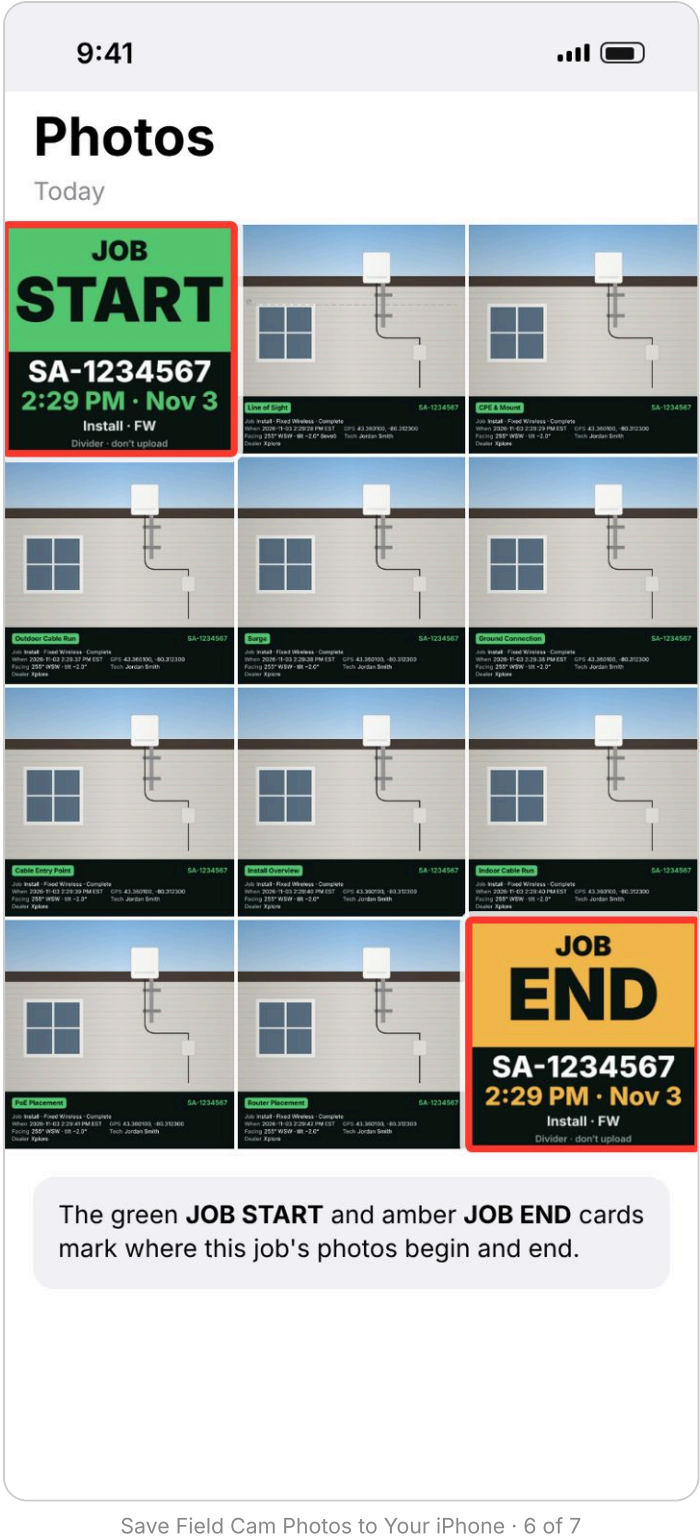

Tap the round **Save N Images** button. **Don't use Save to Files** (it's under View More).

SAVE FIELD CAM PHOTOS TO YOUR IPHONE

6. Check your Photos app

This job's photos sit between a green **JOB START** and an amber **JOB END** card.

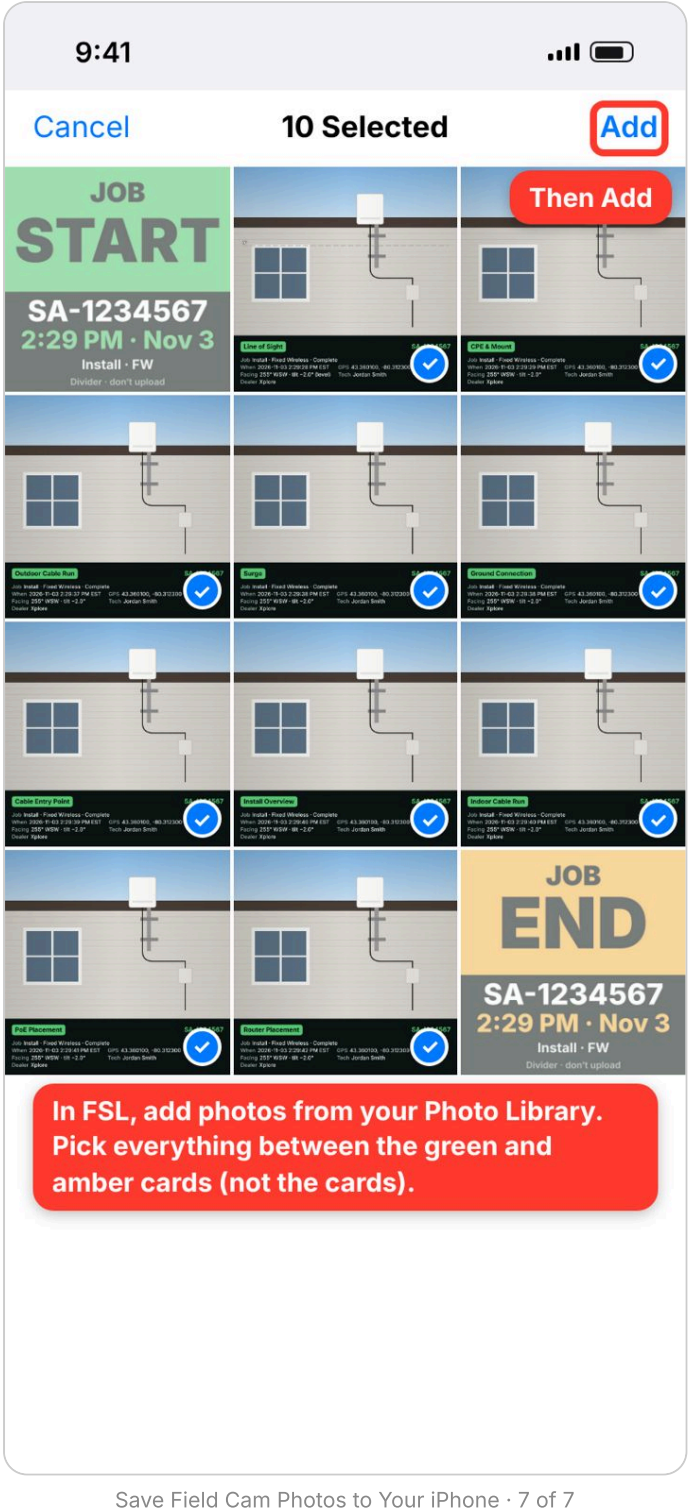

The green **JOB START** and amber **JOB END** cards mark where this job's photos begin and end.

7. Attach them in FSL

Add photos from your **Photo Library**. Pick everything between the green and amber cards, not the cards.

If the share sheet closes without saving, tap Save again.
